Brewing Class Agreement

I, _____,

a member in good standing of the Sun City West Zymurgy Club, agree to take a _____ (extract or all grain) beer brewing class for a donation of \$30.00.

This entitles me to one personalized hands on course, use of all necessary brewing equipment, and tools to make one 5-gallon batch of beer, and to store one carboy or bottles (in the 13"x 19" cubicles) of home brew, in the clubs refrigerated cooler for up to one year.

I understand that if I wish to keep my beer in a carboy longer than 60 days, I must provide my own carboy.

The student shall provide the following:

Necessary ingredients for their recipe

Bottles and crown caps or Corny keg

The club shall provide:

Assistance in recipe formulation

All necessary equipment for brewing and fermenting

Hands on personal instruction

It will require 3 to 5 hours to brew an extract beer and 6 to 9 hours to brew an all grain beer.

After brewing the beer will require 5 to 21 days to ferment.

Bottling or kegging will require 2 to 4 hours.

The beer will need to condition for most styles approximately 2 weeks before it is ready to drink.

It is the student's responsibility to attend and complete all the above steps to prevent spoiling the beer.

I understand the terms and conditions of taking a beer brewing class. I understand that if I cancel my membership, I am required to remove any beer stored on club property.

Any property I leave behind when I am no longer a member in good standing shall become property of the Sun City West Zymurgy Club.

Wine Making Class Agreement

I, _____,
as an active member of the Sun City West Zymurgy Club, agree to take a
wine making class, for a donation of \$30.00.

This entitles me to one personalized hands on classroom course, use of the
clubs brewing equipment and tools to make one batch, (typically 30
bottles) and to store one carboy or 24 - 750ml bottles (in the 13"x 19"
cubicles) of home brew, in the clubs refrigerated cooler for up to one year.
With the understanding that if I wish to keep my wine in a carboy longer
than 60 days, I must provide my own carboy.

The initial beginner's class will use wine "kits" that contain nearly all
necessary ingredients to make a batch of wine, in whatever flavor the
student chooses. And it will take approximately 8 hours of the students
time over the course of between 5 and 10 weeks, depending on whether
the batch is white or red wine. The student understands that it is their
responsibility once the class is started, to attend and complete, all
subsequent steps/classes that will be offered. And failure to attend a class
and complete a step at the proper time may result in the loss of the entire
batch they started.

Each student will be required to purchase a wine kit of their choosing,
procure at least 30 - 750 ml bottles and corks for those bottles. All other
tools and equipment will be supplied by SCW Zymurgy Club at no cost to
an active member (a savings of over \$100.00).

The first step in making wine from a kit will take about 2 hours to
complete.

After 7 days, the second step will take about 2 hours to complete.

14 days after the second step, it will take about 2 hours to complete the
third step.

And the last step of bottling the clarified wine takes about 2 hours, and is done 2 to 7 weeks after the third step.

NOTE: White wine can be consumed immediately, as it doesn't get better with age, and must be refrigerated if kept longer than a few months. While red wines will benefit from being aged for months or years.

I, as a student, understand the terms and conditions of taking a wine class. And understand that if I cancel my membership, I will be required to remove all stored wine that I have made. And if I do not remove what home brew I have left behind, it becomes the property of the Zymurgy Club, to dispose of.
