President's Remarks

In my opinion, a new-born child is the most vulnerable creature in the world. One that needs our love and care for such a long time until it becomes somewhat independent. But alas, aren't our children and grandkids a joy to watch and cuddle?!

In April, [Rotary celebrates Maternal and Child Health Month](#), one of our six areas of focus. Depending on the source where the number is coming from, but an estimated 6 million children under the age of five die each year from diseases, malnutrition, poor health care and inadequate sanitation – all of which can be prevented. So what is Rotary doing to help and support those women and children that need it the most? Generally speaking, Rotary provides education, immunizations, birth kits, and mobile health clinics. Women are taught how to prevent mother-to-infant HIV transmission, how to breast-feed, and how to protect themselves and their children from disease. Some examples include:

Mobile prenatal clinics: Haiti has the highest maternal and infant mortality rate of any country in the western hemisphere. Rotary provided a fully equipped medical Jeep to volunteers and midwives to reach mothers and children in remote areas.

Cancer screening: Rotarians provided a mobile cancer screening unit and awareness trainings around Chennai, India, where there is a high mortality rate of women with breast and cervical cancer due to late diagnosis.

Preventing injuries and death: Rotary members launched a \$3 million, five-year pilot to save lives of mothers and children during home deliveries in Nigeria.

Rotary makes amazing things happen!

O Lord and giver of all good We thank thee for our daily food May Rotary friends and Rotary ways Help us to serve thee all our days.

FOUR WAY TEST
Of the things we think, say or do:
1. Is it the TRUTH?
2. Is it FAIR to all concerned?
3. Will it build GOOD WILL and better FRIENDSHIPS?
4. Will it be BENEFICIAL to all concerned?
