Dear fellow Rotarians

I hereby enclose a short presentation of our latest project "Life is born in Petrich" which is of utmost significance for our local community.

The project is directed to handling one of the most pressing needs of our community - the lack of conditions for adequate medical care for mothers and their newborns in the maternity ward in the town of Petrich.

The condition of the ward is on the threshold to fall below the existence-minimum (see below, presented in pictures).

With the current letter, I turn to all of you, rotary fellows, with the hope to turn your attention to this and to receive your support.

Rotary club Petrich would heartily grateful for any contribution on your

behalf whatsoever.

We truly hope that with your help we can create proper conditions for the children to be born in our town!

We believe that the Rotarian solidarity and the shared responsibility is something distinctive for Rotarians worldwide and truly rely on your response!

***Yours sincerely,
Lyubomir Grigorov***
