Seeing the Real Honduras

Instituto Para el Desarrollo Hondureño (IDH), has been working as a microfinance not-for-profit organization for over 40 years serving poor entrepreneurs with loans and training in nine provinces throughout the country.

Honduras is the third poorest country in Latin America (after Haiti and Nicaragua), and has a population of eight million people. Incredibly, 60% of its population live below the poverty line and are unable to meet their basic needs due to lack of formal employment.

There are approximately 500,000 Hondurans who have been driven by need to start small informal businesses from home or on the

streets in order to generate income to provide for their families. In order to grow or sustain their small businesses, every entrepreneur needs capital. Studies show that 70% of Honduran small and medium enterprises have never received credit.

Journey with IDH to witness firsthand how we are walking alongside Hondurian families in the poorest sectors of society to help them achieve their dreams. Through the provision of loans, technical assistance and financial education, our clients are developing sustainable businesses and creating holistic change in their lives.

The Opportunity and Rotary Experience

Each year Rotary District 5360 and our partner in the Honduras Economic and Community Development Project, Opportunity International Canada arrange a one week Insight Trip to allow Rotarians to connect with this work. Opportunity International hosts Insight Trips so we can share with you, our partners, the hope, gratitude and excitement we experience every time we are in the field with clients working hard to achieve their goals.

Insight Trips are safe, eye-opening and unforgettable adventures that are authentic to each host country.

MARIA'S STORY

Maria de los Angeles Ordonez is unstoppable. Driven by an entrepreneurial spirit and a passion for her art, Maria continues to thrive. At the age of 13, Maria quit school to help support her family of nine. By age 16, she had taught herself how to make paper handicrafts, and it wasn't long before she pursued wood carving, which has been her calling, her passion and her life's ambition. In 1999 she received her first loan from

IDH, allowing her to purchase carving tools. But the life of an entrepreneur is not without challenges. As a result of the 2008 economic downturn, Maria's business nearly closed. But she was unstoppable. With the support of Opportunity, Maria was able to overcome these challenges, not only recovering, but expanding her business.
