## More than a Service Project

We will be staying in beautiful Antigua. The resort hotel has numerous amenities including spa services and great dining opportunities. After the projects are completed, you will have the opportunity to visit Mayan ruins in Tikal, hike local volcanos, or explore Guatemala on your own.

## District 5790 Global Service Project

## What a Contrast

**Needed:** 150 Rotarians, Rotoractors, Interactors, family, and friends to travel to Guatemala with enthusiasm and a heart for service to change the lives of thousands of kids and their families.

Starting June 23, 2019

## School Rehabilitation and Hygiene Improvements

Projects will be focused on strengthening schools and improving the health of students and their families. Some of the projects we will be working on:

- **Replacing the roof** on a school in an earthquake prone region
- **Repairing bathrooms** in several schools
- **Installing new stoves** with chimneys and other appliances in school kitchens
- Assisting with **hygiene health initiatives** to improve hand washing and sanitary habits
- **Installing computer labs** in schools for elementary kids, special needs children, and college age young adults

## Conference Hotel

We will be staying at the beautiful Casa Santo Domingo Resort. The hotel is easily among the best in Antigua, if not all of Guatemala. Situated among several fascinating museums, the resort features numerous amenities including a spa and a beautiful garden.

Please take a moment to view their website:

## Long-term, Sustainable Generational Change

On all of these projects we have sought to find strong local partners to create lasting impact. Some projects are designed to team Guatemalan youth and Rotarians with visiting volunteers to help build relationships and share skills.

## At Risk Youth – Fast Track Employment

Expanding a successful program on the east coast for the past 14 years. At risk students (70% rural and 30% city) are given a comprehensive 3 year long education and apprenticeship. They attend school for 3 hours a day and then intern with a chosen business for 5 hours. Students usually come in with the equivalent of a 6th grade education and leave the program with a high school degree. 80% of these leave with a job.

We will work together with the local technical school for construction of desks, tables, etc. and leave the tools behind with the host Rotary club for the school's use.

## *We Need You!*

We will be working on a number of different projects centered around strengthening schools, providing clean water and improved hygiene. We are looking for both skilled and unskilled volunteers.

Skills need include:

- Plumbing, electrical, tile, and/or carpentry
- Painting – including murals and artwork
- IT skills for computer lab
- Medical / nursing needs
- Spanish language (help w/ translation)
