

SUN CITY WEST ZYMURGY CLUB

Revised Jan / 2026

Membership Application

Zymurgy is the art and science of fermentation.

We're passionate adventurers in the world of fermentation, always on the lookout for flavor combinations that spark joy. From beers and ales to wines, meads, ciders, and other delightful drinks, we love discovering how they pair with foods that make life richer and more memorable. Together, we celebrate the craft, the flavors, and the friendships that make every sip an experience.

New member applications may take several weeks to process. You will receive an email once your membership is active. Zymurgy members may not use Zymurgy equipment until they have completed training on proper equipment operation and cleanup.

Please tell us your interest in joining the SCW Zymurgy Club

Prohibition of Distilled Spirits/Liquor

Zymurgy Club members producing wine, beer, and ales or any product made using Sun City West Zymurgy equipment or facilities shall not subsequently use the product to distill spirits (liquor). Any member in violation of this rule may have their membership in the Zymurgy Club terminated and lose membership privileges. Any criminal or civil action taken as a result of violation are the member's responsibility.

Be aware, distilling of spirits requires a Federal license and inspection of the distillery and its facilities used in production. Once the Federal license is secured, the State of Arizona requires the distillery be registered. Failure to do so may result in severe penalties including forfeiture of property. A copy of the Federal laws and State registration requirements are available in the Club Operating Procedures.

I understand and will abide by these rules to be a member in good standing of the SCW Zymurgy Club.

All members are required to sign this form. A record will be kept in the membership files.
