

Prohibition of Distilled Spirits

Zymurgy Club Members producing wine, beer and ales or any product made using Sun City West Zymurgy Club equipment or facilities shall not subsequently use the product to distill spirits. Any members in violation of this rule may have their membership in the Zymurgy Club terminated and lose membership privileges. Any criminal or civil action taken as result of violation are the members' responsibility.

Be aware distilling of spirit requires a Federal license and inspection of the distillery and facilities used in production. Once the Federal license is secured, the state of Arizona requires the distillery be registered. Failure to do so may result in severe penalties including forfeiture of property. According to Arizona Revised Statutes, once the proper licenses are obtained, any distilled liquor may be given away to family and friends over the age of 21. A copy of the Federal laws and state registration requirements will be available in the Club Operating Procedure.

I understand and will abide by these rules to be a member in good standing of the SCW Zymurgy Club.

All members are required to sign this form. A record will be kept in the membership files.
