

Sun City West Zymurgy Club

P.O. Box 5566
Sun City West, AZ 85376

Revised: 05/10/2019

Prohibition of Distilled Spirits

No wine, beers and ales or any product made within the Zymurgy Club where the use of this club's equipment or facilities has been used by any member shall not be used for the distillation of spirits. A member may distill spirits at home or at a facility not part of the RCSCW. Be aware distilling of spirit requires a Federal license and inspection of the distillery and facilities used in production. Having obtained a Federal license the state of Arizona requires the distillery be registered. Failure to do so results in sever penalties including forfeiture of property.

The laws of Arizona states: Giving your homemade liquor away to family and friends who are age 21 or older does not require a license. This is following the Registration of your still with the state.

A copy of the Federal laws and state registration requirements will be available in the Club Operating Procedure. Any member in non-compliance or violation of this rule will have membership in the Zymurgy Club terminated and lose membership privileges. Any criminal or civil action taken as result of violation are the members responsibility.

I understand and will abide by these rules to be a member in good standing of the SCW Zymurgy Club.
