2. It was suggested at our meeting last evening (6 July) that Club nights/Directors meetings should be held on the 2nd Wednesday of the month for 2022/23. Give this some thought so it can be discussed next week and if members, and perhaps more particularly, Directors think this should be the case it can be dealt with that evening.

This is Lennox Academy – a school in Los Angeles which was the topic of Gail's 3 minute talk.
The windows are mesh.
