Insects: The Future of Food & Feed

AMANDA ABOU RJEILY

GRUBSUP
SUPERIOR NUTRITION

The Year is 2050

10 billion people
35 billion livestock

How will we feed the world?
What will we be eating?

What will protein look like in the future?

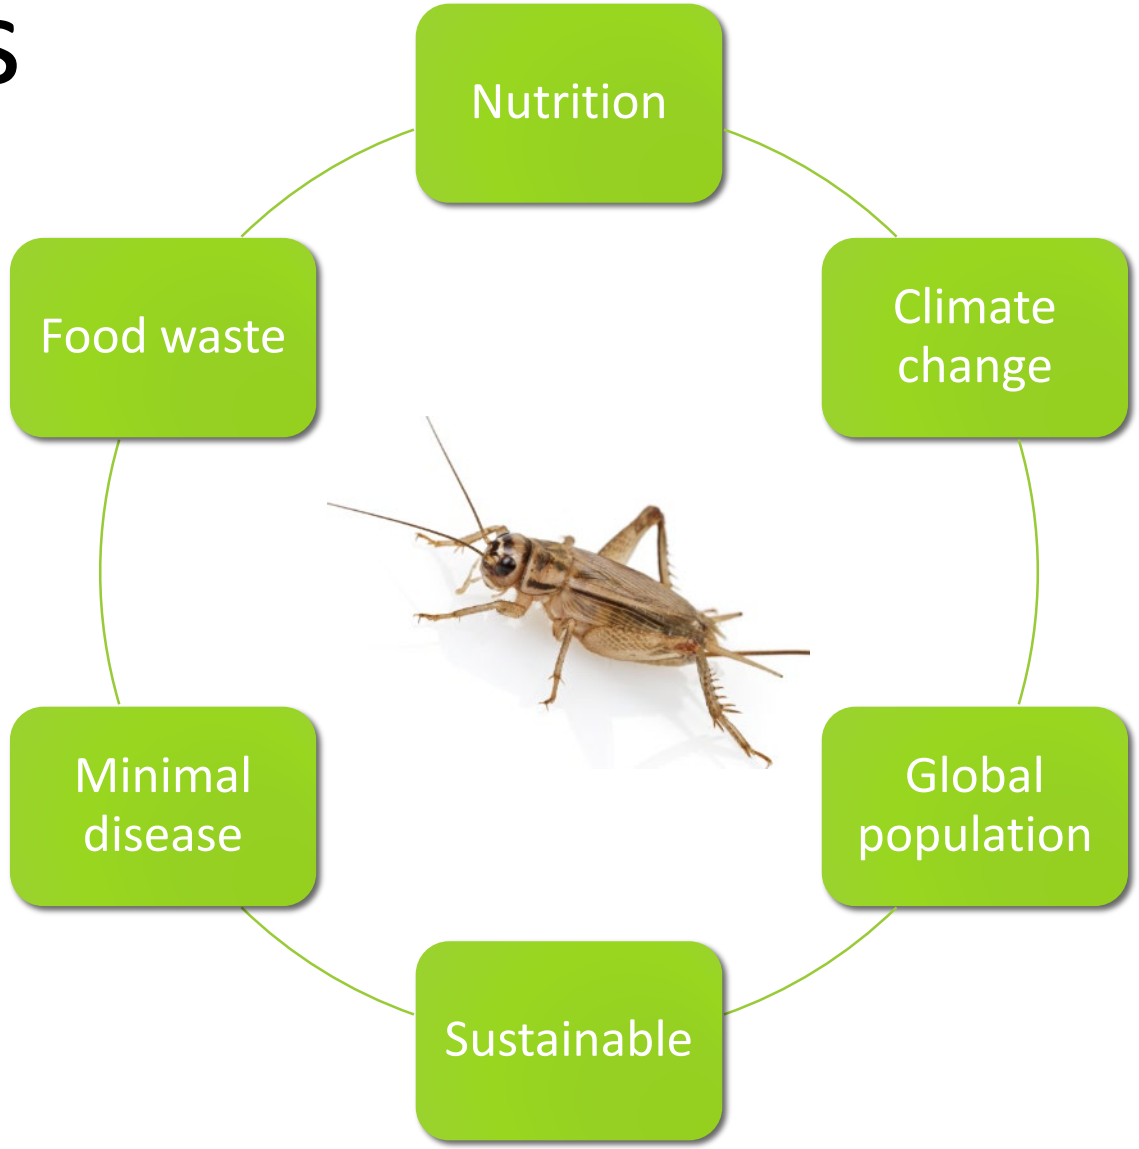
Why Insects



GRUBSUP
SUPERIOR NUTRITION

CRICKETS ARE A NUTRITIONAL POWERHOUSE

2x more **protein** than

more calcium than

more **iron** than

more **fibre** than

as many **omega-3s** as

SENS
