Subject: The last couple of weeks in Switzerland :)

Hi Kim and David,

This afternoon I am going on my Rotary Eurotour which is for almost 3 weeks. I thought I'd write an email now to let you know what I've done recently, and I'll let you know about my Eurotour afterwards!

The Pope visited Geneva on Thursday and my friends and I were lucky enough to be able to also go and visit the Pope. We didn't get to see his address to Geneva as we didn't have tickets, but we saw him at the airport when he arrived. Unfortunately there were so many people and security that we didn't get a photo.

While we were in Geneva we also went swimming, and ate in a famous restaurant originally in New York, called Black Tap. We ordered freak shakes to really embrace the restaurant - unfortunately I wasn't able to finish because it was so so big!

Below is a picture of my friend Tatum from California and I with our freakshakes. The second picture is Molly, Tatum and I.

I was also lucky enough to take a train up to Hardergrat in the mountains with Tatum and Molly. It was so beautiful and definitely what I imagined of the Swiss Alps!

Hope all is well with you and the club! Best wishes from Switzerland :)

Holly
