

Rotary – Environmental Sustainability

Rotary Action Group [ESRAG] - Verg Native Garden

The Moreton Bay City Council [MBCC] are offering community-based grants to organisations eg Rotary, to provide Nature Verg Gardens.

The opportunity to “bring back the buzz” is available to be installed between your boundary fence and the foot path.

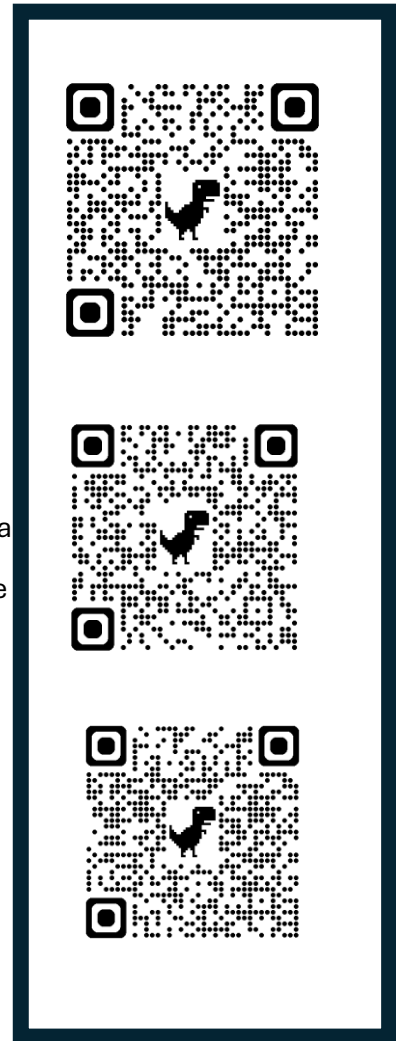

Examples of typical verge setup / planning are available to be seen - a typical setup is opposite 67-77 Sorrento St, Margate.

There is a growing interest in Community Verg Gardens across Australia and there are many organisation eg Rotary are doing just that. Another example is the Rotary club of Balwyn in Victoria

The plants will be sourced from Kombartcho Native Nursery – the plants will be small and in tubes and there will be a requirement to initially to water for a couple of weeks post planting to get the plants established.

“Check before you Dig” will be carried out on your verg in co-operation with the MBCC to check for potential issues – Water – Electricity – and other possible infrastructure considerations.

If you live in block of units, you will have to get body corporate permission before we start.

We are looking for interested property owners who may want to be a part of the initial group to get the project underway.

<https://portal.clubrunner.ca/15918/Stories/verge-native-garden-mbcc-2026> will provide more information as well

To get started and if you want to find out more, please txt 0418 540 891 and or email ESRAG.MoretonBay@Gmail.com or scan the following QR Code
