Club of Geelong East

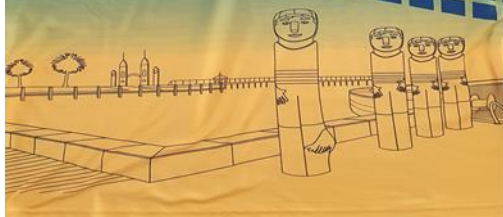

## Dispatches from the East

APRIL 2021 edition

## NEWSLETTER

### Special points of interest:

- Maternal & Child Health Month
- Embracing Working Together
- Turning Mental Health on its head
- Some more myths about vaccines
- Be Cyber Security savvy
- A peak into....
- Programme Updates

Dear Members,

Club activities are definitely moving forward now that we are starting to see the light at the end of tunnel and surrender our face masks. Now with many restrictions lifted, we can get back to running Fundraising events. We also welcome

the return of our face to face meetings at St Albans Football Club! Grant application are also well underway and we hope to have some good news in the coming months.

We continue to have a diverse range of speakers and topics and it is encouraging to see our members show so much interest.

Let's keep things moving and continue to focus on supporting our Community!

Yours in Rotary Service,

*Yannick Le Gall*

President 2020-2021

## WE'RE HERE TO HELP YOU DISCOVER MORE....about the Rotary of Geelong East

Take a visit and discover the benefits of joining a vibrant Rotary Club. Our friendly Rotary Club of Geelong East is ready to welcome you. Your job is to explore the many projects underway and be rewarded with the feeling that you too can help and support our community.

Go on, it's time you had a really good look around the many benefits of being a Rotarian and discovered the diverse range of activities and community based projects!

All article submissions must be emailed to [ylg0504@gmail.com](mailto:ylg0504@gmail.com) no later than the 12th of each month.

APRIL 2021

*By Yannick Le Gall*

When thinking about April being Maternal and Child Health month, I decided to review some of the projects in [Rotary Showcase](#) and [Rotary Ideas](#). What a privilege to join in life transforming projects by being part of the Rotary. I encourage you to take some time to read the projects below and then peruse these sites to find scores of other worthy projects.

- Workshop in the Philippines for parents raising children in this technological era.
- Colombia hospital project for obtaining biomedical equipment to provide care for neonatal and paediatric patients.
- A maternal healthcare project in

- Adopt a hydrocephalus baby project in the Philippines.
- In Nigeria there is a project to provide basic health care services and medications to women and children.
- Turkey awareness program to inform and decrease childhood marriages called “Still Child”.
- Smile Siberia is a project providing free surgeries for Siberian kids having cleft lip and palate.

For more information, you can also go to <https://rotary9780.org/sitepage/rotary-resources-giftbox> and download [INK-57 A-Review-of-Maternal-and-Child-Health.pptx](#)

#### 4. Myth: Vaccines aren't necessary

tation and nutrition isn't enough to stop infectious diseases. While hygiene and sanitation is important, many infections can still spread regardless of how clean we are. To prevent this from happening, vaccination coverage rates must reach sufficient levels.

When you protect your own child against disease, you are also protecting your community. For many infectious diseases, when a sufficient proportion of a population is vaccinated, infectious diseases are unlikely to spread – this is known as ‘herd immunity’. But

if people are not vaccinated, diseases that have become uncommon in some areas can quickly reappear.

In October 2019, the Pacific Island nations of Samoa, Tonga and Fiji were gripped by a measles outbreak due to low vaccination rates.

The highly infectious disease – which causes a rash and fever – killed more than 80 people, most of them babies and young children, and infected more than 5,600. UNICEF responded by urgently delivering close to 300,000 vaccines and medical supplies to protect children and families.

UNICEF has been working to vaccinate the world's most vulnerable children and their families for more than 70 years. Every year, UNICEF procures more than 2 billion doses of life-saving vaccines and vaccinates half of the world's children.

### 5. Myth: Vaccinated children cause outbreaks

**Also false.** Immunisation currently saves between 2 to 3 million lives every year. However, there are rare instances when a disease may spread despite the population being vaccinated. Some diseases change and evolve, which could impact the effectiveness of vaccines. The strain of bacteria or virus in the vaccine needs to be the same as the disease. That's why we are encouraged to have yearly flu shots – the flu virus can change rapidly.

But what about vaccine-derived outbreaks? Oral polio vaccine contains a tiny bit of weakened poliovirus that enables it to bring about an immune response in children and protect them from infection. But on rare occasions, as the vaccine-virus cycles through children's bodies over time, it can mutate into a harmful form of poliovirus that causes paralysis and

spread to those who are unvaccinated.

If all children in the area are adequately immunised, this virus has no one to infect and dies away. The lower the population immunity, the longer these viruses survive. This is what happened in both Yemen and Sudan in September 2020.

Outbreaks of vaccine-derived polio were attributed to increasingly low levels of immunity among children. Both countries are facing conflict and restricted access, making it difficult to reach remote areas with life-saving vaccines for long periods of time. UNICEF teams continue to work day in, day out to reach every child, no matter their situation.

If a population is fully immunised against polio, it will be protected against the spread of both wild and vaccine derived strains of poliovirus.

That's why we must continue this vital work to reach every child with regular immunisations and ensure that children and

## A BIG THANK YOU FROM SHELTERBOX. SOMETHING TO BE PROUD OF!

Dear Rotary President,

I hope you and your members are keeping well.

It is with great pleasure that I enclose your SapphireLifetime Giving Award in recognition of your support for ShelterBox over the past years. A Sapphire Award recognises lifetime club giving of \$15,000 - \$24,999.

Enclosed is a copy the 2020 Rotary Impact Report, illustrating how your support has helped to change lives. Despite the challenges of the past 12 months, ShelterBox and its affiliates have adapted and innovated to ensure that nearly 40,000 families received assistance, following disaster and conflict. It is only due to the support of donors like you that this is possible.

I wish you good luck in the coming year. Please pass on my sincere thanks to your members for their generous support.

Yours in Rotary

*Mike Greenslade*

CEO, ShelterBox Australia

## EMBRACING WORKING TOGETHER!

### DIVERSITAT CHAMPIONS!

A big thank you to our volunteers who worked with **Diversitat** to make their **Hope Garden Open Garden Day** on April 1st at

Aruna Ave, Norlane, a success. The tasks undertaken were initially to spread some mulch in the garden area then setting up tables, chairs and the BBQ. The community participants received talks on propagating of plants, garden techniques and a tour of the garden area itself. At the conclusion of the Hope Garden presentations, lunch was provided to all. Cooking of the sausages was undertaken by Graham Thomson with assistance from David & the serving of the cooked sausages, salads with associated

wraps were undertaken by Jenny Acopian & Janine Koch. Once lunch had been served and participants had left assisted in packing area up.

### Working with BCYF

When first told of the idea of providing hands on help to BCYF, we wanted to help in an way that we could and believed this is an important initiative.

Our first mission was to put together Easter packs destined for the many Foster carers and Fostered children. Each pack included a Thank You card onto which our Rotary of Geelong East volunteers handwrote messages in support of the wonderful work done by the Foster parents.

Examples of handwritten messages

Thank You Card Design by Gary Newton

## GIVE WHERE YOU LIVE FOUNDATION

The Rotary of Geelong East attended the Give Where You Live event on the 18th March at the Geelong Arts Centre. The Club contributed a total of \$1200, an amount matched by by partners Gforce Employment Solutions Erdi Foundation and the Anthony Costa Foundation.

Our donation was distributed across two locally operating organisations: Geelong Youth Engagement and Strong Brother Strong Sister, who are changing young lives in the community.

## PUZZLES & MENTAL HEALTH

On the 16th of March we heard the amazing story of **Catherine Eagleson**, who spoke openly about her experience with Mental Health and her ability to turn her life around using her ability to focus on problem solving.

Catherine Eagleson has been a member of the Rotary Club of Drysdale since 2006. She is also the current 9780 District Chair for Australian Rotary Health.

Catherine has lived with a mental illness for almost 20 years. Whilst it has been a struggle, over time, she has turned the negative into a positive, seeing her life skills as an opportunity to help her grow, reinvent herself, and make a difference by helping those in a similar situation. She has done this in a unique way, by promoting the benefits of solving puzzles.

Since launching her Clue Detective Puzzle Agency in 2004, Catherine has recognised the huge potential that puzzles have as an educational resource for schools and libraries, and a public relations tool for business.

### CLUB ASSEMBLY

## 4th May Club Assembly

An opportunity to share ideas, discuss opportunities and club progress

## A VOCATIONAL EVENING WITH.... GREG HOLT

By Warren Norton

**T**he first Vocational / Youth meeting for this calendar year was held at East Fruit Market.

The Guest Speaker was the owner of the business, Greg Holt. Greg held members attention for 40 minutes and was then bombarded with questions from many, during the finger food dinner.

Greg talked about how he got into the business, his philosophy of employing young people, monitoring trends to ensure that his businesses keep up with and in some cases ahead of demand. He takes time out to listen to what customers are asking for and as a result, now has expanded the range within Geelong East Fruit Market, established Feast, a plant-based café that caters for all and most recently, East Side Wholefoods (bulk foods).

Members were treated to a range of plant based savory and sweet finger food.

It went quickly proving that people enjoyed what they ate.

Greg has supported the Rotary Club of Geelong East for some years, providing hampers for Dinner Auctions and raffles.

A great night, informative and entertaining!

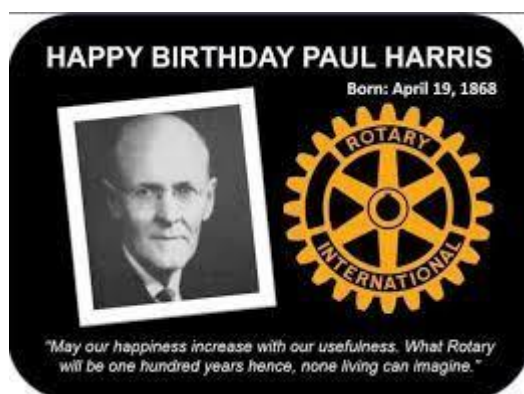

## A visit from Phil & Judy

DG Phil Beasley and his wife Judy will be visiting our Club **27th April**

Phil will give a presentation on his focus for the year and Judy will give a presentation on our DG & Partner project - The Indigenous Literacy Foundation

**20th April 2021**

Grovedale Hotel

# Be CYBER SECURITY savvy

By Tony Alsop

## Digital Cyber Threats – Guest Speaker, Howard Randall, 30<sup>th</sup> March 2021

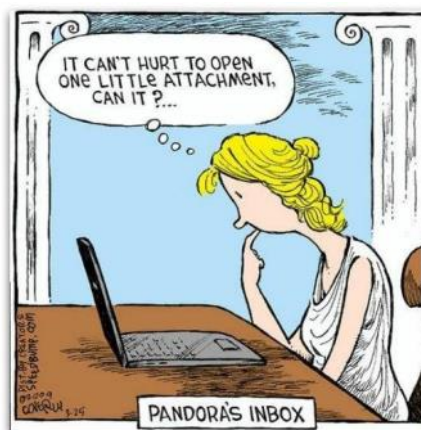

Howard, who met with us on zoom, is a business consultant from Quay Focus who specialises in cloud based computing systems in Microsoft 365 spoke about digital cyber threats (that's the electronic digits – not the fingers and toes digits). He told us about the different types of cyber threats, how safe the cloud is, how vulnerable

we are, what the weakest links are and how to minimise our risk. Turns out the person behind the keyboard is the greatest risk but he gave us plenty of tips, the most important one was to keep all your digital devices (computers, tablets, phones, etc) up to date. The older your hardware and software is the greater the risk.

Howard has over 30 years in Rotary and is currently a Rotarian from RC Torquay and served in leadership roles in D9780.

Thank you Howard for spending your time and expertise with us.

PS - Don't be like Pandora – don't open that strange email in your inbox.

To the Presidents of Group 9 & 10.

The Rotary Club of Belmont in conjunction with BCYF have made the decision to defer our annual Business Charity Luncheon in support of Headspace Social Inclusion Program due to the challenges that Covid brings to holding such an event.

Our Club has again agreed to support this program and in place of the lunch, we will hold an Appeal. Our Appeal will run from 26th April to the 6th May.

We seek your support in promoting this appeal to your members. A further email will issue prior to the appeal date with further details and how to make a donation.

The annual cost of running the Social Inclusion Program is in excess of

\$ 100,000. Our aim is to seek funds to ensure the program continues for a further 12 months. This program receives no State or Federal funding and is funded purely from our funding raising and community support.

Should you require any further information, please do not hesitate to contact Gerard Sell, Chairperson, Headspace Social Inclusion Appeal, Rotary Club of Belmont

**Entertainment**

We are fundraising with Entertainment!

# A peak into ...

## HOW WELL DO WE KNOW OUR CLUB MEMBERS

### WALHALLA *and the* BLACKSMITH'S GREAT GRANDSON

By Keith Dawson (Rotary Member since 10th Oct 2006)

Many of you may be aware that, for many years, I have always been interested in my family history. This interest started with a privately published book, "Loutit Family Saga". A book about my paternal grandmother's Family (Loutitt or Loutit) and the family roots in the Orkney Isles visiting Viking and doomsday books. What better story for an 8-year-old to digest? This interest was also fostered by the fact both my father's parents had passed away 10 years before I was born.

Over the last 35 years I have been chasing the branches, twigs and leaves into my family tree (Dawson / Golland). The excitement level increased when I found a journal in the Macquarie Library in Sydney written by my Great Uncle on the "Canton" the ship that was carrying the "Dawson Family" from Lincolnshire to Sydney in 1835.

Now retirement has allowed me to document my years of research in a story about each of my uncles and aunties (My father was one of seven and

my mother one of five) so I have undertaken to put together about 15 to 20 pages about each of my uncles and aunties.

*"I am the Great Grandson of a Blacksmith not a Wordsmith".*

I have an opening line whenever contacting my cousins to seek further information about their parents and explain what I am doing with this information. I like to use it to point out that they will get the facts but it will not be very polished and I take no offence if they care to edited the final Document.

Now just to explain this statement my Grandfather was the Manager of the Long Tunnel Gold Mine in Walhalla which by the way was one of the riches gold mines in Victoria. He married the Company's Chief Blacksmith David Loutit's daughter Margaret Edith Loutit.

Hence, I am the Great Grandson of a Blacksmith.

David was a pretty clever fellow when 1887 the company asked him to help to celebrate Queen Victoria Golden Anniversary, so he made the "long Tunnel Jubilee Gun".

I have been a member of the Walhalla Heritage and Development league for many years.

On four occasions, I have travelled to Walhalla for the dawn ANZAC day service with a hope of seeing the cannon being fired only once has this happen. But you can see the cannon in the Walhalla Museum.

I can recommend Walhalla as a place to spend your money in support of the town that have been affected by the covid lock downs. But Please do some research before getting there. <http://walhalla.org.au/index.htm>

David is the man with the leather apron behind the left-Hand side of the Sign
