PROGRAM – HOLLY FATH

Holly grew up in Lockport, IL. Her dad was raised in an opulent apartment above her grandfather’s men’s clothing store. Her mom was a flight attendant for United, Revlon beauty queen, and model.

Holly was raised in a socially conservative Catholic family that was also very politically liberal. Her only sibling – an older brother – was a tennis superstar. Holly’s early pursuits included dance, tennis, ice skating, and downhill skiing.

Holly went to Stephens College where the world of feminism took root, and she learned to reconcile that with her patriarchal upbringing. During summers she waited tables at The White Fence Farm.

Holly’s early Sales career was for Lancome and other French skincare companies representing her products at all the Chicago upscale department stores. She was also a makeup artist. Later that career evolved into business and management in the fragrance industry. After marrying Dennis, her career shifted to selling ingredients that continues for the past 25 years.

Holly began volunteering in her twenties – for DCFS in Chicago. Seven years ago, she was looking for a place to pour her philanthropic energy, met Nancy Redmon, and the rest is history. It’s a perfect fit! When Holly lost her youngest son in a car wreck, having the close community / family of this club was an indescribable salve. She is forever grateful.
