SAN FRANCISCO PARKS ALLIANCE

OUR CITY OUR PARKS

#### Public spaces are:

- The foundation of our city's character
- Where our city comes together and imagines a shared future
- Safe and shared places to relax, play, connect and celebrate

San Francisco Parks Alliance champions, transforms, and activates parks and public spaces throughout our city through innovative partnerships with community groups, city government and businesses.

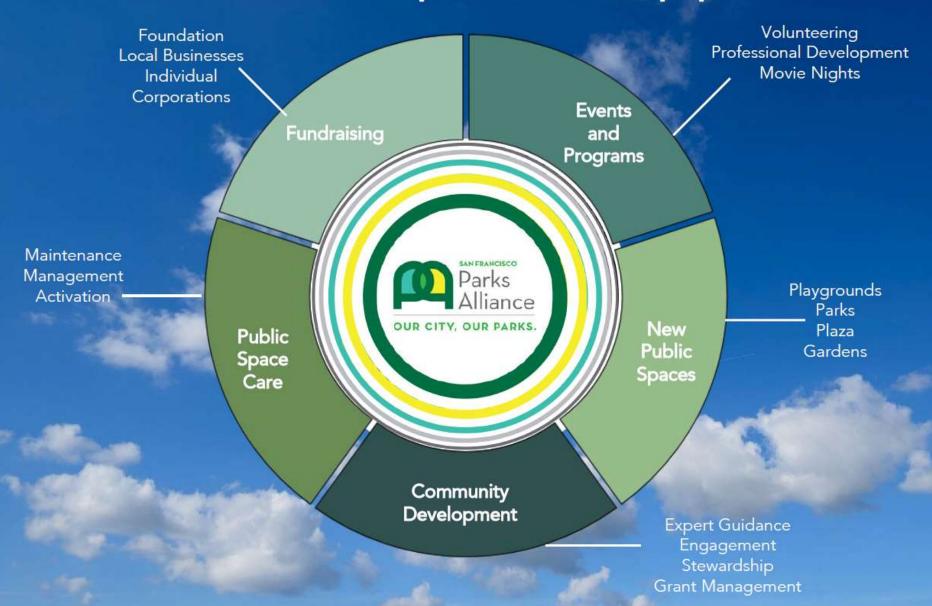

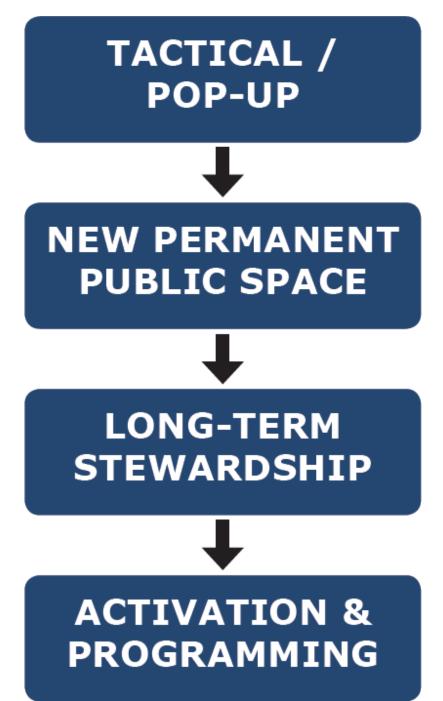

We believe that building these partnerships to support parks and open spaces leads to stronger, more cohesive communities, greater physical and mental wellness, and a more sustainable, equitable urban environment.
