## Fine Master:

**Member Birthdays:** **Patti Minutello** (Dec. 1).

**Partner's Birthdays:** **Bob Minutello** wife, Patti..

**Multiple Birthdays:** **Donna Croker's** grandson; her son, her husband, **Julian** and **Donna herself** celebrated birthdays recently. And, if that was not enough, she and Julian celebrated their anniversary!

**Miscellaneous Fines:** **Vera Wallen** was given multiple fines for booing and hissing. **Janet Meyers** got fined for the way she started our opening song (remember—that one about beautiful!). And **Lance Morales** was fined for his son Cody's engagement (Rick—experienced with marriages--did have to ask if this was the first time.....). Then **Bally** confessed that her son was getting married, so she got hit with a \$20 fine. **Chuck Forester** then talked about his daughters, paid some for that. And finally, **Kate Perry** exploded with questions about the way this Evil Fine Master fines, letting people choose their own amount etc. Sigh. To end this & get to participate in being fined, Donna Crocker, Bob Kasper, & Don Ramirez sang their USC college song in honor of the coming-up Big Game!!

**Credits:** Rick awarded **Janet Meyers & Lance Morales** for the Food Art they gave him (yes, we all look for ways to help the Fine Master feel good). But then Rick turned on **Dennis Rightmer & Nancy Carr**: BOTH of them have new cars!, Dennis a black Mercedes and Nancy Silver Grey Honda Pilot. Dennis got away with \$6, but **Nancy** (silly girl) offered to pay \$20--& she got to!! Then Rick turned onto our Sheriff, pointing out that **Dick** was caught up in the essence of the club, so told **Socorro** that she should have her new husband become a member of Rotary (of course he already was for a l-o-n-g time). Our Whispering Pines note-taker did not hear the fine amount, but knows there was something for that!

## Program :

**Mike di Milo**, our speaker, is a graduate of Cal Poly SLO and had lots & lots of information for us, especially about the new little waste buckets we all were given just recently by our garbage company. Mike pointed out that 31% of waste is organic, 155 tons into Cold Canyon for that. It is much better to use it for growing purposes, so this new program has come. We can't put liquids, paper, plastic, or metals into this—but lots of other stuff is fine!

Restaurants have special rules for this through AB 1826 passed recently. There are consultants to help restaurants reduce their trash, increase recyclables. They go to Engle & Gray in Santa Maria to recycle, it is the closest place now. The plans are to move to a place near San Luis Obispo Airport. They are building an anaerobic digester for that—which will generate electricity AND fertilizer makers.

We can learn more at the website [lwma.com](http://lwma.com). San Francisco has been doing this for some time, although Los Angeles is behind. In the future there may be biodegradable bags for the garbage, but not yet—so we have the little buckets. Mike is trying to get paper bags to be accepted, but not yet.

**We got to ask questions & learned some interesting stuff about this recycling!!**

## Closing Remarks:

**President Sharon** thanked our speaker and all of us for coming.
