

Individual Project Report

Backpack Project

Project Description

1. Describe the project. What was done, when, and where did the project activities take place?

While the Shelburne Food Bank does their best to make sure that there is food for school lunches, the Rotary Club of Shelburne knows that insuring that each student starts the new school year with a backpack to carry lunches and school supplies is equally important.

Our goal was that the backpacks we supplied to students from JK to grade 12 were useful, fun, age specific and most importantly, not branded with company logos so that they looked just like the ones their peers were carrying.

Through the months of July and August we registered students and put together 92 backpacks that were over-stuffed with grade specific school supplies, water bottles and lunch kits. Families picked up their packs at the food bank just in time for back to school.

2. How many people benefited from this project?

92 students in local schools received backpacks

3. Who were the beneficiaries, how were they impacted by this project, and what humanitarian need was met?

Students who were members of families registered with the Shelburne Food Bank as being in need of support

4. How many Rotarians participated in this project?

6 members participated

5. What did they do? Please give at least two examples, not including financial support provided to the project.

Picked up school supplies purchased from local stores (Walmart, Costco, Staples), packed back packs, and delivered to food bank

6. If a cooperating organization was involved, what was its role?

Shelburne Food Bank supported with registration and distribution

Financial Report

Date	Description	Funding Source	Amount	%
Aug 03, 2022	District Grant Payment	District Grant	\$2,105.00	25.25 %
