Why is it Important to Get Followers?

- **Allows you to get your message out to ...**
 - **people that have an interest in your page (Followers)**
 - **the friends of your Followers, if they choose to share your post**

The Reach of Social Networks

A red boxing glove is shown breaking through a white, torn paper surface. The glove is positioned in the center-left of the frame, with its fingers pointing towards the bottom right. The white surface is torn and ragged, revealing a brown cardboard-like material underneath. The entire scene is set against a dark gray background that curves around the right side of the image.

How to Create Posts That Break Through The Clutter

Facebook's Algorithm

What is it?

- The Facebook algorithm controls the ordering and presentation of posts, so that users see what is most relevant to them.

Why important?

- **The more you know about the algorithm, the greater the chance you will create posts / ads that Facebook will show to your Followers.**

On average, ONLY 5% of your Club's FB posts will get shown to its Followers (organically).

Why?

- Facebook is an advertising company. It wants you to buy ads in order to share your message.
- Competition: The average user has about 1,500 posts or ads competing to appear in their News Feed every time they log on.
- In order for FB to thrive, it MUST ensure that users see relevant and engaging content every time they log in.

Facebook's Algorithm is always looking for interesting content. As soon as it recognizes that a post is generating engagement among users, it automatically starts sharing that post with more users.

Facebook's algorithm favours the following content:

Posts that...

- Generate a strong emotional reaction
- Generate comments / discussion
- Get shared / re-shared
- Come from consistent contributors

Content that has...

- Native video, especially those that are +3 minutes long
- Simple animation (GIFs)
- Images
- Tags

How to Drive Engagement

ALWAYS Post with a Purpose

- Who is the target?
- What is the key message you want to communicate to them?
- Why is your target interested in that message?
- What response do you want to generate from that target?

Use this check list for each post to ensure it has a clear purpose!

Maximizing the Power of Hashtags and Tags

Hashtags Enable Users to Search for Facebook Content

- **Hashtags turn copy into clickable links. This helps people find posts about topics they're interested in.**
- **When you click a hashtag in a post, you will be brought to a page that shows all the posts that have also used that hashtag (within Facebook).**

Hashtags – Used Properly

Hashtags – Used Poorly

Facebook Hashtags

- **Never more than 3 at a time (one is best)**
- **Make sure the landing is relevant**
- **Use them consistently (for a given topic)**

What is Tagging:

Tagging a Facebook Follower:

- When you **Tag** a Follower, you create a link to that person's **Profile** within your **Post**.
- The **Post** that includes that **Tag** is typically added to that **Follower's Timeline**.

Tagging a Facebook Page:

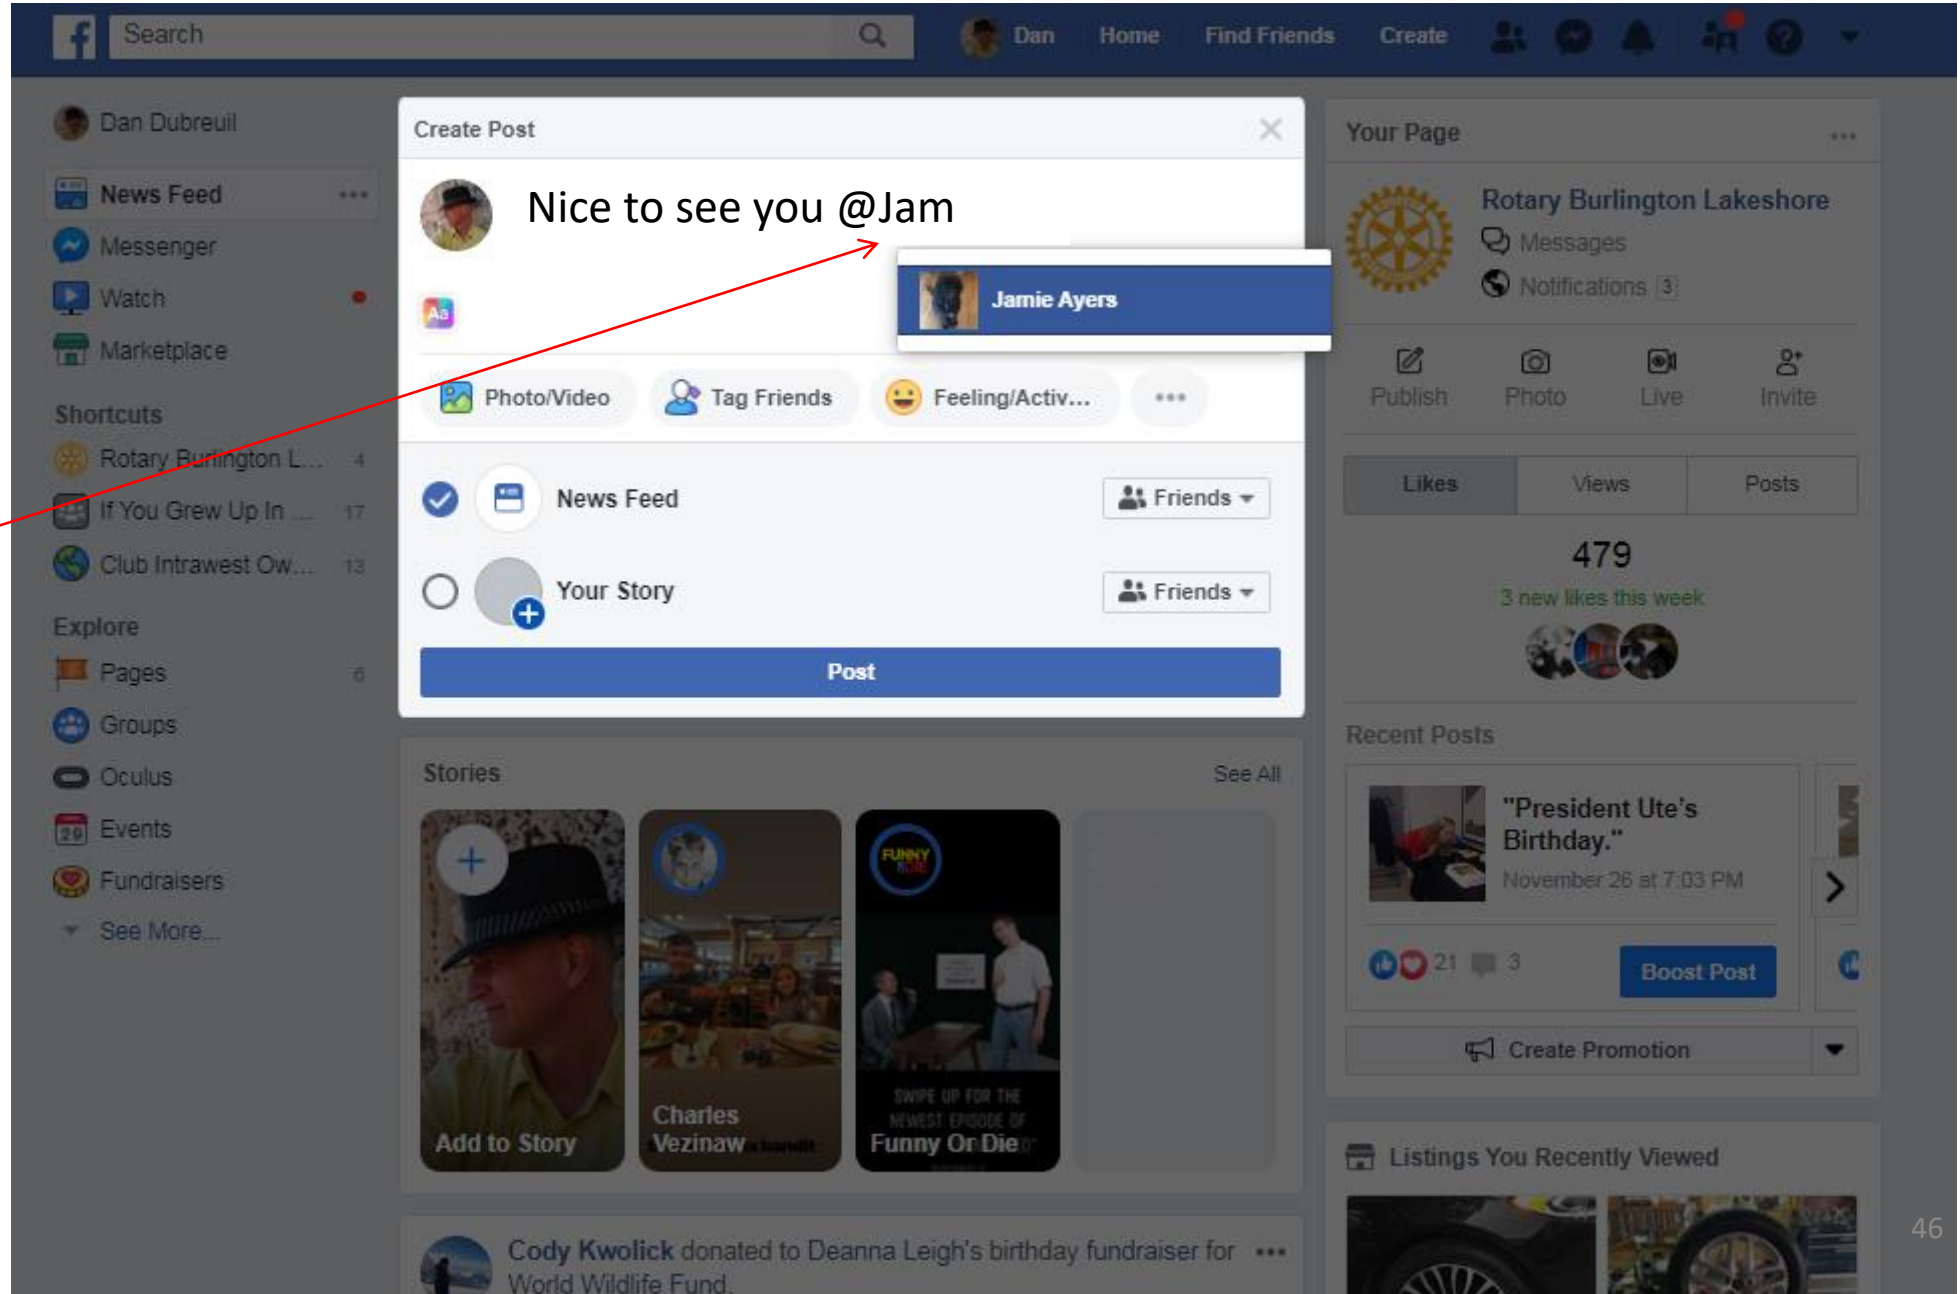

- When you **Tag** a Facebook **Fan Page**, you create a link to that **Fan Page within your Post**. Essentially, it's an easy way to drive traffic from your **Post** to their **Page**.

Tagging a Friend by Mentioning Them in a Post

Start with @, and then type your Friend's full name. A pop-up will appear to allow you to **Tag** that person in the **Post**.

Their name will only appear in the pop-up if you already **Follow** them on Facebook.
