Rotary International
District 7490
Current or Planned
International Service Project Summary

Club: Fort Lee

Project Name: Health Care and Nurture Diagnostic System (HANDS)

Location: Philippines

Estimated Project Cost $39,683

Project Time Completion: TBD

Summary of Project: A diagnostic center in the municipality of Guiguinto in the province of Bulacan. This will be the first affordable diagnostic center in the area, designed to find diseases at the early stages and help citizens get needed treatments. The local government has offered land to build a two-story building to house the diagnostic center on the ground floor. The second floor will be a multipurpose center for the local people. Fort Lee Rotary have been working with the local Rotary club, Guiguinto Premier, on this project. Together, we recently completed a project to establish a mobile clinic for the people of the area. The HANDS project complements our earlier work.

If Looking for Partners or Participants in the Project, Identify Needs: We are seeking other clubs as partners to help fund this project. We will apply for a Global Grant to complete the funding.
