

Decal plate information

New Registrations: In order to obtain a decal plate, please complete the town portion of the registration at your town/city hall, and go to a state DMV office (Listed below) to complete the state portion of the registration and receive your plate, and month and year stickers. From there, you may go to your non-profit agency to obtain your Rotary Wheel decal from the website www.rotary7870.org.

Do you have an existing registration and now want to switch? You can come to a state DMV office and complete a midstream plate change. Cost will be \$15 for a new registration, plus the \$15 decal plate state fee, and a one-time fee of \$8 for the new set of plates. Please bring your current valid registration. See above about obtaining the Rotary Wheel decals.

Once you have registered your plate, renewals can be performed at your town or city hall.

Questions please call (603) 227-4000.
