

The 2nd Rotary Day of Service
Protecting the Environment Event
Marin, San Francisco, San Mateo Counties
May 13, 2023

Dear Potential Sponsor:

The first Earth Day was over 50 years ago. Since then, Rotary clubs around our world have worked hard to build awareness, inspire action, and plan service projects to protect our environment.

AND WE ARE CONTINUING TO TAKE ACTION ... from beach cleanups, tree plantings, plastic collection, lithium battery recycling to complex projects like solar in the city and developing clean energy for our communities.

SEEING THE ENTHUSIASTIC SUPPORT of our successful Rotary Day of Service – Protecting the Environment event in 2022, our [Rotary District 5150](#) (1650 members in 44 clubs in San Mateo, San Francisco and Marin counties) is reserving May 13, 2023 for another Day of Service. Once again Rotarians, family, friends, and community members will perform hands-on environmentally-related service projects, educating ourselves and our communities via environmentally-themed exhibits and Electric Vehicle displays to continue raising awareness of environmental needs and solutions to meet those needs.

This year, we plan to add Lithium Battery recycling (from cell phone batteries to EV batteries) at each site by working with the Environmental Sustainability Rotary Action Group (ESRAG) and Redwood Materials.

WE INVITE YOU TO BE PART OF OUR 2nd ROTARY DAY OF SERVICE, PROTECTING THE ENVIRONMENT EVENT! Please consider becoming a sponsor AND participating in our event. Net proceeds will go toward Rotary sponsored environmental projects.

Please feel free to contact me with any questions.

Thank you for your consideration. Anything you can do to help this effort is needed and so very appreciated!

Sincerely,

Sylvia Barry
