- 6. Oak Meadow Park Cleanup November 7, 2020.
- 7. St. Luke's Volunteers.

"Rotarians on the Roof" Training and Service with SolarWork.org

Renewable energy is the key to reducing greenhouse gases that are the cause of climate change and global warming. Rooftop solar installations save building owners money on their monthly utility payments and reduce pollution in our local atmosphere.

As our Rotary Club does for Rebuilding Together Silicon Valley, we can start a new annual service project for climate change action by becoming trained and participating in rooftop solar installations for non-profit organization buildings in Los Gatos and the West Valley.

SunWork.org, a non-profit solar installer serving the San Francisco Bay Area, will first train our Rotary service volunteers in the basics of solar, electricity, and construction safety. Then, we will eventually work together with SunWork's professional staff, installing racking, running conduit, hanging inverters, and mounting the solar panels on the rooftops of non-profit organization buildings, such as schools, churches, and charities.

### ---- YOU NEED NOT ACTUALLY GET UP ON A ROOF TO PARTICIPATE ----

The next Volunteer Solar Installer Training <u>Webinar</u> with SunWork.org will be held on Saturday, October 24, 2020.

To sign-up, go to https://sunwork.org/volunteer/

For more information, contact Chris Potter at 408-838-4513.

# Twenty for Twenty

# **Rotary Opens Opportunities**

# SERVICE ABOVE SELF

"Protect your enthusiasm from the negativity and fear of others. Never decide to do nothing just because you can only do a little. Do what you can. You would be surprised at what 'little' acts have done for our world."

**Steve Maraboli** 

# NEXT WEEK

**333** 

# **ADJOURN**

Thank you all very much for your time today and your time, talents and service throughout this year.

Stay Safe. Stay Healthy. Stay Connected.
