

Organization/Corporate member information

The organization/corporate membership program is a collaborative effort between an organization/corporation and the Loveland Rotary club to combine resources and ideas to have a significant positive impact on the Loveland community.

One individual from your organization/corporation will be the official Rotary member and other people can participate as affiliates at no extra cost or join Rotary for an additional cost. The official Rotary member will be able to send someone else in their place to enjoy a free lunch, an interesting presentation and networking opportunities when they can't attend.

The organization/corporate membership program will bring you many benefits. We will acknowledge the support of your organization/corporation to our membership with an initial introduction, a periodic directory and a listing on our website. The relationship between the Loveland Rotary club and your organization/corporation will be recognized publicly with a certificate that can be displayed, in press releases and by tagging your organization/corporation in our Facebook posts.

The Loveland Rotary club has weekly meetings in person and on zoom with presentations that are relevant to the Loveland community and communities around the world. These meetings and periodic social events allow members to socialize with other Rotarians who are active in serving the Loveland community.

We believe that through our organization/corporate and individual members and the background that our club has serving the Loveland community for over 100 years, we can make a real difference. Your organization/corporate member will be able to provide valuable inputs for selecting the projects mobilizing the resources to implement them. We can arrange for groups of people from your organization/corporation to participate in service projects that we coordinate whether they are Rotarians or not. This is a good way to foster camaraderie in your organization/corporation while, at the same time, performing valuable service to the community.

Personal growth is an important part of Rotary. Leadership and communication skills training courses are a few of the many courses that Rotarians can take advantage of. Through the Rotary training center there are many courses available some of which are developed with partnerships with organizations such as Toastmasters International. Rotary district assemblies and conferences are another way to hear some outstanding speakers and meet interesting new people.

Dues for an organization/corporate member are \$285/quarter including lunch. Contact us at RotaryLoveland@gmail.com
