Rotary Club of Loveland

Rotary for Your Business or Organization

The Rotary Club of Loveland cordially invites your business or organization to explore the benefits of joining us through a Business/Organization Membership. For over 100 years, Loveland Rotarians have joined together for service, fellowship, connections, and personal growth. The Business/Organization Membership Program is a dynamic partnership between your organization and the Loveland Rotary Club, uniting resources, and ideas to create a profound positive influence on our Loveland community and beyond.

Key Benefits of Business/Organization Membership:

Community Service Involvement: Demonstrates your organization's commitment to service by engagement with Rotary, a well-recognized worldwide service organization, and which offers a robust business network for your organization, the ability to influence and participate in a broad range of service projects, and provides personal growth opportunities for multiple members of your organization.

Flexibility: Though one Primary Rotary Member is named, multiple colleagues (affiliates) can be chosen to attend when the primary member is unavailable, or they can participate at any time for a small incremental cost for lunch. Alternatively, colleagues can become full Rotary members at reduced costs.

Leadership Development: Participants engage in Rotary weekly programs with other community leaders to further expand understanding of community needs and wants, drive local and global community service initiatives, and share in delivering them.

Public Recognition: Display your Rotary membership certificate at your location, gain visibility with your logo on our website linked to your business, and have your service events promoted to our Loveland Rotary membership.

Summary of Advantages Demonstrated commitment to service and community involvement.

- ✓ Increased community awareness and networking opportunities.
- ✓ Flexible schedules for all members.
- ✓ Enhanced visibility for your organization through shared event promotion.
- ✓ Cost savings compared to individual memberships.
- ✓ Public recognition of your Loveland Rotary Partnership.
- ✓ Personal satisfaction from making a positive difference.

Membership Costs and Options:

Option 1: Business/Organization Primary Member, plus Affiliates

* The Business/Organization assigns a Primary Rotary Member who is an official Rotary member with all rights within the Club and Rotary International.

Dues for the Primary Member are: $315/quarter ($1,260/year), typically paid for by the business/organization

* Loveland Rotary encourages other employees within your organization to attend club meetings as "Affiliates", who can also participate in club committees, but cannot vote nor become a chair**.**

Costs for Affiliates: There is no charge for Affiliates to attend a meeting, and they can enjoy lunch without cost if the Primary Member's paid for lunch isn't being used.

Option 2: Business/Organization Primary Member, plus Additional full Members

Dues for the Primary Member are: $315/quarter ($1,260/year), typically paid for by the business/organization (as noted above in Option 1)

* In addition to the Primary Member, some employees in your Business/Organization may want to become Official Rotary members with full rights within the club and Rotary International. They can do so by becoming *Individual Alternates*, who can also take advantage of using the Primary Member's paid for lunch if it isn't already being used.

Costs for Individual Alternates are: $98/quarter ($392/year (does not include lunch) or $245/quarter ($980/yr) including lunch.

Incremental lunch Costs: when requested by additional Affiliates or Individual Alternates, lunch can be paid for at each meeting at $16 per individual lunch ($18 per individual on special seasonal holiday celebration meetings)
