

GET THE AREA'S BEST CARE IN THE COMFORT OF YOUR OWN HOME.

When you or a loved one needs in-home care services, it's comforting to know that you can find everything you need right here, from Day Kimball Healthcare at Home.

Day Kimball Healthcare is the premier integrated medical services network in Northeast Connecticut. Our primary care providers work as advocates for your health, integrating their own expertise with that of our specialty care providers and other health experts to proactively help you access the care you need. These practitioners are linked not only through their commitment to your health, but through advanced technology that enables the secure, efficient and accurate communication and sharing of information.

OUR IN-HOME SERVICES MAKE LIFE EASIER FOR INDIVIDUALS AND THEIR FAMILIES.

Day Kimball Healthcare at Home offers a wide range of compassionate and personalized in-home care services. And we expertly integrate them with the care delivered by our primary care doctors and specialists, so the patient's entire care team remains informed about his or her condition.

All of our in-home services are available throughout Northeast Connecticut, making us the only resource you need for the services that will help you live with health conditions that are best served by in-home care.

Our in-home care services include:

Day Kimball HomeCare: Our skilled providers visit individuals at home to monitor and manage health conditions, manage and supervise medications, and provide behavioral health services, IV therapy, physical therapy, occupational therapy and more. We are a Medicare-certified home health agency, and our team is on call 24/7. We offer acute and chronic disease management 24 hours a day, seven days a week—scheduled daily, weekly or as needed. Home visits are coordinated in advance with the appropriate clinician based on which services are needed to manage the patient's conditions. We also assist the elderly and their caregivers in managing chronic illnesses and high-risk conditions to improve health, safety and functionality.

Day Kimball HomeMakers: Our homemakers provide personal care and homemaking services to senior citizens and to individuals with Alzheimer's or dementia. Our services are the perfect alternative to assisted living or nursing home care. Our care is provided 24/7, weekly or daily, overnight or live-in. We provide help with personal hygiene assistance, household chores, errands and companionship. We also drive clients to appointments and provide caregiver relief.

Hospice & Palliative Care of Northeastern Connecticut:

Our team of highly skilled and experienced professionals and volunteers brings dignity, comfort and compassionate care to those facing life-limiting or life-threatening illness, their families and caregivers. We create individualized care plans to meet a patient's physical, psychosocial, emotional and spiritual needs to ensure the highest-quality of life possible and to provide support and bereavement care to the family.

ASK US FOR MORE INFORMATION

Ask your primary care doctor about any of our in-home care services (which also can be delivered to individuals in long-term care facilities), or contact us to arrange a care coordination assessment. You can learn more at daykimball.org/athome.
